TA – COMMENTS – YAROSLAV KOROBKA

Please write comments below considering qualities like encouraging students to participate actively in class, using time efficiently, good use of examples, available and able to answer questions.

- he solved all exercises and explained them very well
- maybe he could cover more questions in class
- This is one of the best courses that I have ever had.
- he is good
- the TA is patient and his lectures are very enthusiastic and infectious
- I want to get some practice that is not code tasks.
- he asked questions about how to approach questions before solving them encouraging student participations
- Rather difficult to understand, ES questions chosen were also quite technical.
- Yaroslav Korobka is very professional. His explanation is concise and to the point.
